

Welcome to Rockwood Park.

Enjoyed by many for its freshwater lakes for fishing, swimming, boating and skating, Rockwood is the hub of outdoor activities year round. Over 55 trails and footpaths will guide you through the park's unspoiled charm, with its unusual topography and geography.

A Stonehammer Geopark site, Rockwood's billion years of history can be seen in unique rock formations. Discover all the fascinating treasures in New Brunswick's natural amusement park.

Trail Etiquette- Rockwood Park trails are multi-use, including hikers, runners, dog walkers, mountain bikers, and equestrians. Cyclists should slow to a safe speed when approaching pedestrians and horses, and communicate when approaching from behind. City bylaws dictate that pets must be kept on a leash, and that you must pick up after your pet. Don't litter (better yet pick up garbage when you see it) and stay on the trails. Know your abilities; carry ample water for full day hikes as well as a cell phone. Above all, please be respectful of the trails and courteous to all users.

NAME	TRAIL DIFFICULTY	SPECIAL FEATURES	LENGTH (KM)	TRAIL DIFFICULTY		DESCRIPTION
				Road	Easy	Moderate
Trans Canada [I,7]	●	▣	4.02	This all-gravel trail stretches from Lily Lake up to the northeast corner of the park. Features intrusions of igneous rock more than 548 million years old.		

Wide gravel trails, suitable for all user groups. Grades do not meet wheelchair accessibility standards, but are suitable for the more adventurous people with disabilities.

Carriage Road [G,8]	●	1.02	Well traveled wide gravel trail. Makes a nice loop with Corduroy or the Trans Canada Trail.
Clean Air [H,8]	●	0.70	A horseshoe loop with a gentle hill. The western portion is wheelchair accessible. Karst landscape features are created when acidic waters dissolve calcium carbonate rich bedrock, like marble and limestone. These features are evident by the stream that disappears and reappears in the soluble bedrock.
Fisher Lakes Drive [H,7]	○	2.90	Paved road that winds around Lily and Fisher Lakes. Road follows Caledonia and Brookville terrain fault lines. Prime example of Caledonia terrain on the right hand side coming down from the pavilion.
Lily Lake [I,7]	●	0.38	A well-traveled gentle, flat path that winds around Lily Lake. Billion year old outcrops of marble occur along the shoreline.
Lookout [I,7]	●	0.10	Leads to a lookout built by a chain gang. A great observation point for the park and the city.
Tom Page Way [I,8]	●	0.30	Named after a park naturalist, this trail showcases the park's arboretum - a collection of native tree species planted in the early 1900s.
Water Tower Road [H,5]	●	0.62	Wide gravel road leads to water tower.
Zoo [C,4]	●	3.03	Long, wide, well traveled gravel trail bisects the park and leads to the Cherry Brook Zoo. Outcrops of marble of the Ashburn Formation occur near the north end and Brookville Gneiss near the utility corridor.

Double track trails may not have gravel in many places. Wide enough for two bikes or horses to pass. May have some natural obstacles.

Blueberry Hill [F,8]	■	0.90	A path that loops from the Zoo trail then back again along the open power line right of way. A steep hill in the middle is affectionately referred to as 'the monster' by mountain bikers.
Corduroy [F,7]	◆	1.10	A tree covered trail from Frying Pan Lake to the Trans Canada Trail. A nice hike when looped with the Trans Canada Trail but some sections may be wet/muddy.
Crystal Lake [G,6]	●	0.90	A fairly wide open and easy trail that loops around Crystal Lake.
Long Lake [E,7]	■	1.24	Relaxing trail offers a beautiful view while circling Long Lake. Can be very muddy in wet conditions.
Mayflower Lake [F,4]	●	1.08	A longer winding path leading to Mayflower Lake. Intrusions of igneous plutonic rock over 540 million years old.
Old Carriage Road [I,9]	●	0.39	A scenic connection between the Trans Canada Trail and the campground.
Ski Hill Road [H,5]	●	0.56	An easy scenic stroll in the woods.

Single track wilderness trails with many natural obstacles such as roots and rocks.

18th Hole [F,5]	■	0.43	Scenic trail borders Rockwood Park Golf Course.
9th Hole [E,5]	■	0.70	A smooth, short extension of the 18th Hole trail.
Bypass [G,8]	■	0.40	Trail used by the horses to avoid using the road. Quite rocky. Takes you to Carriage Road.
Carnage [E,7]	◆	2.40	A long, rocky hike leading to the park's northern edge. A real wilderness hike makes a loop back to Corduroy. Note that sections of the trail are not within Rockwood Park.
Cliff [I,7]	■	0.30	Leads through the arboretum from Fisher Lakes Drive toward a lookout to Lily Lake.
Deer Trax [D,8]	■	0.48	Connects Moose Trax to Carnage.
Donnie's Detour [D,6]	◆	0.45	A short detour offers access to Golf Trek and V-Dub.
Enthusiasts' Path [F,10]	◆	0.18	An extremely steep hill accessed via the Trans Canada Trail.
Frying Pan Lake [F,7]	●	0.49	Path hugs Frying Pan Lake with occasional steep hills. Metamorphic rock is over 600 million years old.
Ginger [E,7]	■	0.28	A quiet hike through the forest that runs parallel to the Zoo Trail.
Golf Trek [D,4]	◆	0.80	A challenging trail that begins off of the Zoo trail and intersects with either Tour de Pants or an easier section of Golf Trek. Parts of this trail may be wet/muddy.
Golf Trek [D,5]	■	0.74	An easier section of Golf Trek, this twisting trail leads to the edge of the golf course.
Grocer Lane [J,8]	■	0.34	Trail extends from Highway Drive toward the campground. Offers a nice landing by a stream with views of the city.
Harrigan Lake [C,4]	■	0.70	A loop trail - the bottom half borders the edge of Harrigan Lake and offers many spots to dip your feet in the water. The top half winds through a mature softwood stand.
Heartate Hill [C,5]	◆	0.23	A short trail but with an extremely steep incline.
Hemlock Hill [J,7]	◆	0.55	A short challenging hike offering some great views of Uptown Saint John.
Horse [E,7]	■	0.27	Offers a shortcut from Corduroy to Shyzer. Frequented by the horses housed at the park stables.
It's Gotta Go [G,6]	●	0.90	A lovely hike between a brook and a rock face. Both the brook and Frying Pan Lake lie along a geological fault line.
Lollypop [G,4]	■	0.36	Leads from the Rockpile Road Trail to Mayflower Lake. Mostly coniferous forest.
Lorenz' Leap [H,6]	◆	0.35	Leads to Fisher Lakes parking lot.
Mackay Skyway [H,9]	◆	1.29	Eastern edge of the park offers stunning views of the city.
Mama I'm Comin Home [I,5]	◆	0.60	Aptly named, this route will get you from the ski hill area to the park boundary and on home. A popular mountain bike trail.
Maryanne [F,7]	■	0.58	A compliment to Ginger. Offers a nice tree covered loop to extend your hike or ride.
Moose Trax [C,6]	◆	2.32	A very long hike. Lots of wilderness and tranquility. Makes for an excellent full afternoon hike/ride when paired with Deer Trax and Carnage.
Newfoundtrail [E,7]	■	0.55	A short trek through a deciduous forest patch. An amazing spot in the fall.
Old Race Course [H,5]	◆	0.78	Part of the old ski hill section of the park. A popular trail for cross-country runners and mountain bike racers.
Our Compliments [E,10]	■	1.29	Offers a glimpse of the northeast part of the park. Bisects a wetland with differing flora and fauna from the rest of the park.
Owen Lake [C,6]	◆	1.08	Leads to Owen Lake with nice rest spots next to the lake. Used mostly by hikers, this trail contains some challenging steep hills.
Pugsley [G,8]	■	0.30	A hilly path that connects the Clean Air trail with the Carriage road.
Rockpile Road [G,5]	◆	0.70	Aptly named, this challenging route showcases a karst geologic feature: limestone pavement where acid water has dissolved soluble calcium carbonate rich bedrock.
Shyzer [F,7]	■	0.53	Popular with mountain bikers & hikers, this trail offers a beautiful forest canopy. Mostly level terrain with a few hills.
Simon Says [H,4]	■	1.83	This trail twists and turns to loop back around to the start.
Skywalker [E,10]	◆	0.22	An extremely challenging trail with steep, rocky hills.
Splenda [F,5]	■	0.19	Offers a shortcut from Mayflower Lake trail to Sweetness.
Sponge Bob [C,6]	■	0.53	Difficult, twisting trail accessed from the northern section of Zoo trail.
Sweetness [F,6]	■	1.21	A more challenging option heading toward Rockpile Road. Features open young shrub sections and older forest-closed canopies. A popular mountain bike trail.
Tall Grass [G,10]	■	0.51	Take a hike through the tall grass along the edge of the park. Offers panoramic views of the east side of Saint John.
Tour de Pants [C,5]	◆	0.39	Leads along Harrigan Lake with bridges and steep hills.
V-Dub [D,5]	◆	0.50	Difficult stretch of path accessed via Donnie's Detour.
Wit's End [E,9]	■	0.27	Connects Carnage to the Trans Canada Trail; a drier alternative to Corduroy.

NAME	NIVEAU DE DIFFICULTÉ	CARACTÉRISTIQUES SPÉCIALES	LONGEUR (EN KM)	NIVEAU DE DIFFICULTÉ		DESCRIPTION
				Road	Easy	Moderate
Trans Canada [I,7]	●	▣	4,02	Sentier de gravier s'étendant du lac Lily jusqu'à la partie nord-ouest du parc. Compte des intrusions de roches ignées vieilles de plus de 548 millions d'années.		

Sentiers de gravier larges qui conviennent à tous les groupes d'utilisateurs. Les pentes ne sont pas conformes aux normes d'accessibilité pour fauteuil roulant, mais elles conviennent aux personnes handicapées aventurières.

Carriage Road [G,8]	●	1,02	Sentier de gravier très parcouru faisant une belle boucle avec le sentier Corduroy ou le sentier transcanadien.
Clean Air [H,8]	●	0,70	Sentier à boucle en fer à cheval à pente douce. La partie ouest est accessible aux personnes en fauteuil roulant. Présence de paysages karstiques créés grâce à la dissolution par les eaux acides du substrat rocheux riche en calcium comme le marbre et le calcaire. Ces caractéristiques sont manifestes dans le ruisseau qui disparaît et réapparaît dans le rocher soluble.
Fisher Lakes Drive [H,7]	○	2,90	Route asphaltée passant autour des lacs Lily et Fisher. Accessible en voiture. La route suit la faille des terrains Caledonia et Brookville en passant par les lacs Lily et Fisher. Elle offre une vue du terrane Caledonia du côté droit, en descendant du pavillon.
Lily Lake [I,7]	●	0,38	Un sentier bien battu, agréable et plat qui encercle le lac Lily. Des affleurements de marbre vieux d'un milliard d'années apparaissent le long de la rivière.
Lookout [I,7]	●	0,10	Mène à un belvédère construit par une chaîne de forçats. Un bon endroit pour observer le parc et la ville.
Tom Page Way [I,8]	●	0,30	Named after a park naturalist, this trail showcases the park's arboretum - a collection of native tree species planted in the early 1900s.
Water Tower Road [H,5]	●	0,62	Wide gravel road leads to water tower.
Zoo [C,4]	●	3,03	Long, wide, well traveled gravel trail bisects the park and leads to the Cherry Brook Zoo. Outcrops of marble of the Ashburn Formation occur near the north end and Brookville Gneiss near the utility corridor.

Il se peut que les sentiers à voie double ne soient pas entièrement couverts de graviers par endroits. Assez larges pour que passent deux vélos ou chevaux.

Blueberry Hill [F,8]	■	0,90	Un sentier à boucle au sentier Zoo avec une pente pic qui s'appelle 'the monster' par les vététistes.
Corduroy [F,7]	◆	1,10	Il représente une belle randonnée en faisant la boucle avec le sentier transcanadien. Sections boueuses.
Crystal Lake [G,6]	●	0,90	Sentier relativement large, ouvert et facile qui passe au tour du lac Crystal.
Long Lake [E,7]	■	1,24	Sentier de détente faisant le tour du lac Long qui offre une vue prenante.
